Healthier Lives Worldwide

Medical Donations Program

Increasing access to healthcare
for over **100 years**

Who We Are

CMMB is a global humanitarian organization with more than **100 years of experience** in providing sustainable, community-based medical and development aid to communities affected by poverty and unequal access to healthcare. Our programs improve the health of individuals, build healthier communities, and strengthen local health systems. We work in coordination with host country governments, international NGOs, hospital systems, local health facilities and community groups, as well as other likeminded institutions. Over the last century, we are proud to have helped millions lead healthier lives.

Nearly **2 billion people** have no access to basic medicines.

WORLD HEALTH ORGANIZATION

Mission

CMMB works in partnership globally to deliver locally sustainable, quality health solutions to women, children, and their communities.

Program Description

CMMB receives donations of high quality medicines and medical supplies from partners in the pharmaceutical and healthcare sectors for distribution, free of charge, to patients in the developing world. Our program aims to increase the capacity of health systems around the world to provide essential services and treatments to the most vulnerable, particularly through community-based primary healthcare facilities. We distribute medical donations to a large network of approved consignees—health facilities, NGOs, healthcare providers, and medical missions teams. The CMMB Medical Donations Program improves access to and availability of safe, high quality medicine for the poor, to further our goal to support healthier lives worldwide. CMMB is a founding member of the Partnership for Quality Medical Donations (PQMD) and holds a New York State wholesale license.

Over the last ten years, CMMB's Medical Donations Program has provided more than **\$4 billion worth of medicines**, health commodities, and medical supplies in **93 countries**.

Most Requested Products*

- Antibiotics
- Analgesics
- Antimalarials
- Antifungals
- Anti-retrovirals
- Hypertension medications
- Anti-diabetics
- Antidiarrheals
- Hygiene and wash products
- Wound care
- Basic medical supplies and equipment

*Partial list

CMMB's Medical Donation Program (MDP):

Adheres to World Health Organization Guidelines for donation of medicines and medical devices.

Collaborates with manufacturers to procure quality medical donations (expiry 9+ months).

Distributes medicines and medical supplies for the poor to be provided free of charge.

Screens consignees (ie. donation recipients) through an extensive application vetting process.

Includes a global network of 625+ trusted health care organizations in over 90 countries outside of the U.S.

Monitors donations and holds compliance agreements with all consignees.

Complies with U.S. regulations for supply chain management and international donations (eg. DSCSA, OFAC, FCPA, etc.).

Humanitarian Crises and Disaster Response

Our MDP allows CMMB to respond to some of the worst humanitarian crises and natural disasters in the world, in countries such as Syria, Yemen, Mozambique and South Sudan, among others.
